Rating Rationale

- Kommunalkredit Austria AG's (KA) ratings – apart from its Individual Rating – are based on its 99.78% ownership by the Republic of Austria, which acquired the bank in late 2008. The Individual Rating reflects Fitch Ratings' view that KA has effectively failed and would have defaulted without state intervention.
- A restructuring plan for KA foresees the transfer of its non-core assets (mostly European public sector and bank bonds as well as credit default swaps (CDS) on sovereign risks) into a special-purpose company (SPC), which will be gradually wound down. KA's core business, largely Austrian public-sector financing, will be transferred into an existing subsidiary, to be renamed Kommunalkredit (KA New) and to be privatised in the medium term. The restructuring plan needs European Commission approval, expected later in 2009.
- IFRS accounts for H109 showed a profit, largely due to positive mark-to-market (MTM) swings on CDS. This follows an operating loss in 2008 (EUR1.3bn after considering a EUR1.2bn surety from the Republic) stemming mainly from MTM losses on its EUR12.1bn CDS protection-sold portfolio (EUR1.1bn) and MTM losses as well as impairments on some bonds issued by troubled banks.
- At end-May 2009, KA's EUR41.2bn credit exposure was roughly equally split by bonds, loans and CDS protection sold. Austrian/western European public-sector exposure made up over two-thirds; exposure to eastern Europe was limited (EU states 11.7%; non-EU states 2.7%). High concentration risk is mitigated by the good credit quality of counterparties (97% investment grade at end-May 2009).
- KA is largely wholesale-funded, with a large proportion relating to state-guaranteed medium-term funding. The restructuring plan foresees a transfer of most state-guaranteed funding to KA SPC, while the new core business bank will be funded by issuing covered bonds and private bond placements. While KA's equity under IFRS at end-H109 was negative, the bank reports its Tier 1 ratio under local GAAP, which disregards most MTM movements.

Support

- The Austrian state has committed to maintaining a Tier 1 ratio of at least 7% in KA while the bank's previous owners (Österreichische Volksbanken AG and Dexia) remain invested in its participation capital. As long as this arrangement is in place and/or KA's ownership remains unchanged, Fitch considers there to be an extremely high propensity of support from the public authorities.

Key Rating Drivers

- Fitch does not anticipate a change in KA's ownership structure in the medium term, which is reflected in the Stable Outlook. Although KA's legal successor, KA SPC will contain foreign non-strategic assets, the Austrian state will in Fitch's view continue to take responsibility for an orderly wind down of KA SPC.

Profile

KA is a long-term lender to domestic public authorities but also a trustee of state development funds and a consultant on development projects. KA has announced that it intends to merge its Cyprus-based subsidiary, Kommunalkredit International Bank Ltd (rated 'A+'), into the bank and discontinue its operations.
